

Demonstration of Proposed Features

Date	29 September 2026
Team ID	UNM123APEXLAB
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the features proposed for ComicCraft during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver the proposed AI comic generation solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Prompt-based Story Generation	Generates a complete comic story script, split into panels, from the user's text prompt using Gemini.	Implemented	Yes	Works for varied prompts.
2	AI Panel Illustration	Creates an illustration for each comic panel that matches the scene described in the script.	Partial	No	Image display being finalized.
3	Genre and Tone Selection	Lets the user choose a genre (fantasy, sci-fi, humour) and tone to personalize the story.	Implemented	Yes	Options passed into the prompt.
4	Web UI with Comic Preview	Simple web page with a prompt box and a preview of the generated comic panels.	Implemented	Yes	Works in the browser.
5	FastAPI Backend Integration	FastAPI backend that connects the web UI to the Gemini story and image models.	Implemented	Yes	API keys kept in .env file.
6	Comic Export as PDF	Allows the user to download or share the finished comic as a PDF file.	Pending	No	Planned for next iteration.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	4
Total Features Demonstrated	4
Overall Implementation Rate (%)	67%
