

Project Demo Planning

Date	29 September 2026
Team ID	UNM123APEXLAB
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the ComicCraft team presents the AI comic generator clearly. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction and Team	Welcome the audience, introduce the team members and the ComicCraft project title.	1	Shinnyjoy
2	Problem Statement	Explain why people struggle to turn story ideas into comics (PS-1 to PS-4 and the empathy map).	1	Mahalakshmi
3	Solution Overview	Show the architecture: web UI, FastAPI backend and Gemini story and image models.	2	Ragavi
4	Story Generation Demo	Enter a prompt, choose genre and tone, and show the generated comic story script.	2	Thameem Fathima Aashika
5	Illustration and Preview Demo	Show AI panel illustrations and the finished comic preview in the web UI.	2	Samrin Begam
6	Q&A Session	Answer questions on features, limitations and future scope such as PDF export.	2	All team members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set the context: who the users are and why creating a comic is hard for them without art or scripting skills.
2	Solution Overview	Explain how a single prompt flows through the FastAPI backend to Gemini and back to the web UI.
3	Live Feature Demonstration	Run one live prompt end to end (story, panels, preview). Keep a backup screenshot ready in case of delays.
4	Q&A Session	Team answers questions together. Total demo time is about 10 minutes.
