

Problem-Solution Fit

Date	29 September 2026
Team ID	UNM123APEXLAB
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

The canvas below ensures ComicCraft addresses the root causes, behaviors, and limitations of the target audience.

1. CUSTOMER SEGMENT(S) [CS] - Hobbyist writers and storytellers - Students and teachers for projects and lessons - Content creators and indie authors without art skills	6. CUSTOMER LIMITATIONS [CL] - No drawing or design skills - Limited budget for hiring illustrators - Basic laptop or phone with a browser - Needs internet access for AI generation	5. AVAILABLE SOLUTIONS [AS] - Hand-drawn comics - Pro: full control; Con: slow, needs skill - Hiring illustrators - Pro: quality; Con: costly - Template comic makers - Pro: easy; Con: generic, no story generation - Plain image generators - Pro: quick; Con: no story flow
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] - Turning an idea into a comic takes days or weeks (every project) - Lack of art skills blocks creators (very frequent) - Hard to keep story and visuals consistent (frequent)	9. PROBLEM ROOT / CAUSE [RC] - Comics need both writing and illustration skills - Existing tools handle story and art separately - No single tool that goes from prompt to finished comic - Professional help is expensive	7. BEHAVIOR + ITS INTENSITY [BE] - Users give up midway or stay with text-only stories (medium) - Users retry and refine prompts many times (high) - Users share creations on social media (medium)
3. TRIGGERS TO ACT [TR] - A new story idea or school assignment - Trending AI tools on social media - Need for quick, original content - Curiosity to try Gemini AI	10. YOUR SOLUTION [SL] - ComicCraft: a FastAPI web app powered by Google Gemini models. - User enters a story prompt and picks genre / style. - Gemini text model writes the story and splits it into panels. - Gemini image model illustrates each panel. - Result: a complete, personalized comic in minutes with no art skills needed.	8. CHANNELS OF BEHAVIOR [CH] - ONLINE: ComicCraft web app, social media sharing, YouTube tutorials, online creator communities
4. EMOTIONS BEFORE / AFTER [EM] - Before: frustrated, limited, discouraged - After: excited, creative, proud of the result		OFFLINE: classroom and workshop use, printed comics, word of mouth among friends and peers
